

# THE CENTERPRISE DIFFERENCE

## SECURELY STORE YOUR TECH UNTIL YOU'RE READY TO RECEIVE IT

We understand that organising and coordinating a technology refresh - big or small - over the Summer holidays is a big undertaking. You need everything to go smoothly so you can ensure it's up and running for term time.

That's why you place your order in advance. But with many other resellers, this means activating your warranty early, paying before delivery and purchasing without a firm commitment to a delivery date.

### **We're different.**

With Centerprise, you can place your order today for our Renatus range of PCs with the latest Intel® Core™ processors, and we'll store your equipment in our secure bonded storage facility, where it will safely sit until we deliver it on the agreed date.

**Guaranteed delivery dates** - the equipment is built at the point of order and stored safely until you're ready to receive it

**Invoice on delivery** - we won't invoice until we've delivered your equipment and you are getting value from it

**No early warranty activation** - your warranty officially starts on the day your equipment is delivered, not the day your order it, so you benefit fully from our 3-5 year warranty options

## OUR SERVICE PROMISE

-  **UP TO 5 YEAR HOT SWAP WARRANTY**
-  **LIFECYCLE MANAGEMENT BY DESIGN**
-  **TIER 1 COMPONENTS**

**SPEAK TO OUR CENTERPRISE EDUCATION SALES TEAM TODAY.**
